OBJECTIVE

Intrigued by the political, socioeconomic, and ecological processes shaping the world, I strive to experiment with and reinterpret spaces, crafting practical and innovative solutions. I fully commit to each project, leveraging the skills gained through my professional and academic journey.

I value building multidisciplinary professional networks, fostering cultural, technical, and artistic exchange. I believe this collaboration enhances our ability to tackle complex challenges and delivers projects that truly make a difference in the communities I serve.

PROFESSIONAL EXPERIENCE

PAR Architecture

Jan. 2023 - present. Participation in competitions, development of preliminary designs, authorization and executive projects. Porto, Portugal - Geneva, Switzerland.

LRS architectes
